

PRA Services

INDUSTRIAL CAPABILITY STATEMENT

ZER[®]
HARM

Capability Statement:

PRA specializes in providing a wide range of services to industrial and commercial clients across various industries. With years of experience and a team of highly skilled professionals, we offer customized solutions to meet your unique needs, including:

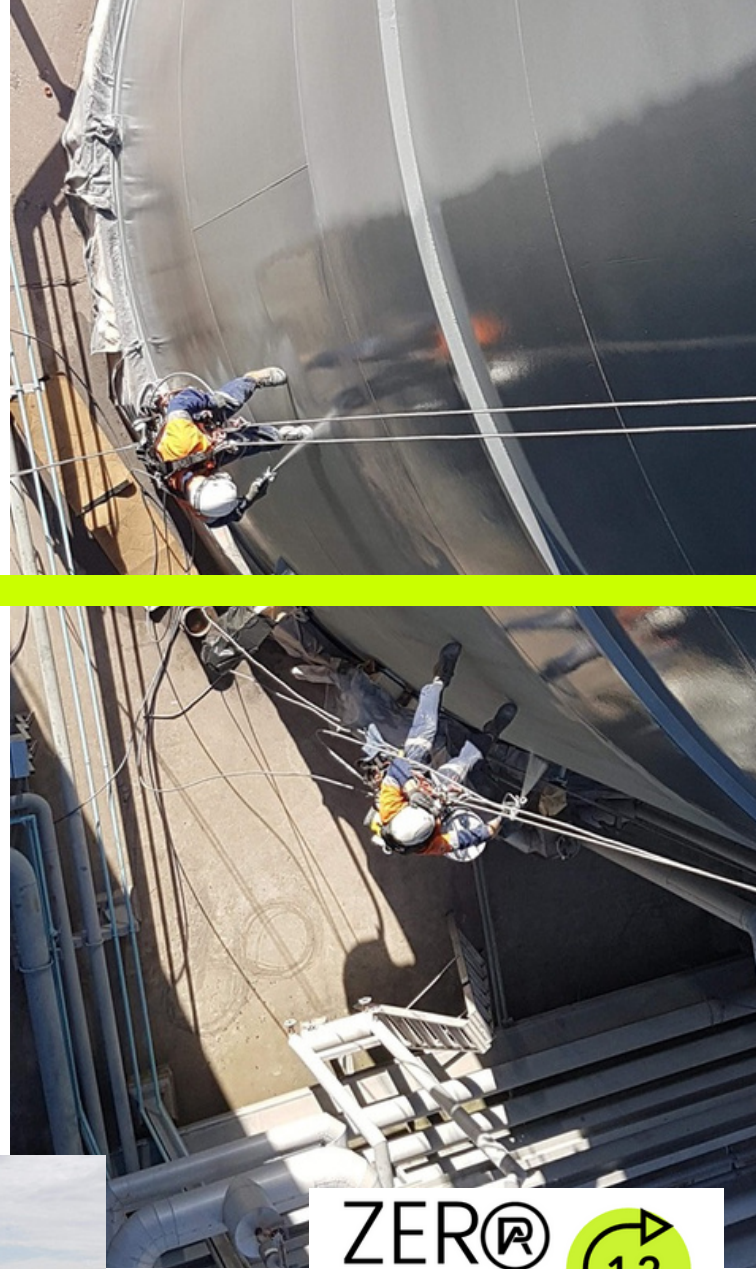

- **Rope Access Services:** Our team of certified rope access technicians is trained to perform a wide range of tasks at height, including inspections, maintenance, and repairs. Our expertise in rope access allows us to access difficult-to-reach areas quickly and safely, minimizing downtime and maximizing productivity.
- **Industrial/Commercial Painting:** We provide high-quality painting services for industrial and commercial structures, including Quay Cranes, buildings, tanks, and pipelines. Our team uses the latest techniques and materials to deliver lasting results that enhance the appearance and durability of your structures.
- **NDT, NACE, Welding, and Mechanical:** Our team of certified technicians provides a wide range of services, including non-destructive testing, NACE coating inspection, welding, and mechanical services, to ensure that your equipment and structures are in compliance with all relevant regulations and standards.
- **Scaffolding:** Our experienced team can design, install, and dismantle scaffolding systems to meet your specific project requirements, ensuring that your workers have safe and secure access to elevated areas.
- **Suspended Platform Systems:** We offer installation and maintenance services for suspended platform systems, ensuring that they are properly installed and maintained for safe use by your workers.
- **Inspection:** Our team of certified inspectors provides a wide range of inspection services, including visual, ultrasonic, magnetic particle, and other non-destructive testing methods to ensure the integrity and safety of your equipment and structures.
- **Standby Rescue:** Our team of trained and certified rescue technicians is available to provide standby rescue services during your projects, ensuring that your workers are safe in the event of an emergency.
- **Confined Space Entry:** We provide safe and efficient confined space entry services, including ventilation, air quality monitoring, and rescue standby to ensure that your workers are protected at all times.
- **Anchor Systems:** We provide comprehensive anchor system installation, inspection, and certification services to ensure that your workers are safe and your operations are compliant with all relevant regulations and standards.

We are committed to providing our clients with safe, reliable, and efficient services. Our team of professionals takes pride in delivering exceptional results while prioritizing safety, quality, and customer satisfaction. Contact us today to learn more about how we can assist you with your rope access needs.

PROTECTIVE COATINGS

BULK TERMINAL

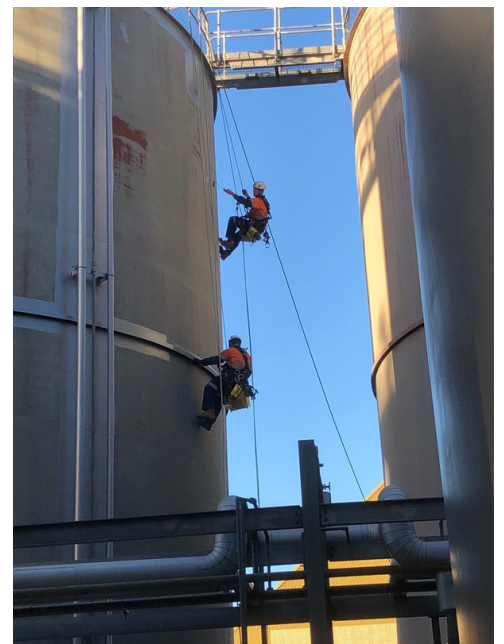

Conduct Rope access blast & paint Campaign on Tallow tanks. total of 7 tanks

ZER®
HARM 

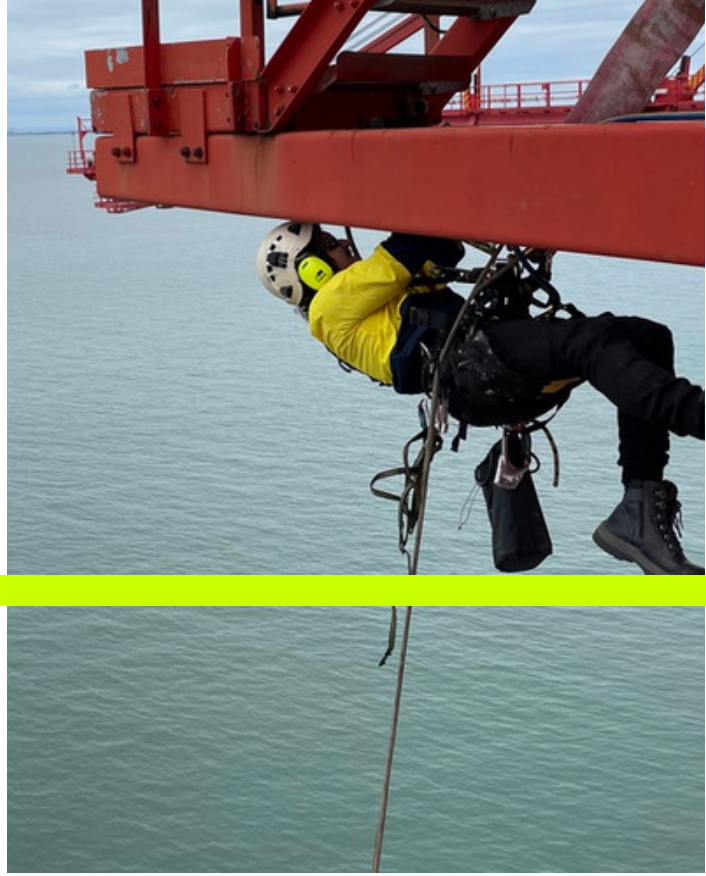

- Tallow Tank Repaint.
- High pressure washing.
- Mechanical prep & stripe coating.
- Airless spaying of protective coatings

CORROSION MANAGEMENT

SHIPPING TERMINAL

Conduct Rope access corrosion management and control on ship loaders, Port of Brisbane and assist with day to day maintenance.

- Install safe methods of access for rope access teams.
- Removal/Installation of roof sheets.
- Inspection & reporting.
- Mechanical paint prep
- Protective Coating application.
- Manage Welding and fabrication works.
- Rigging

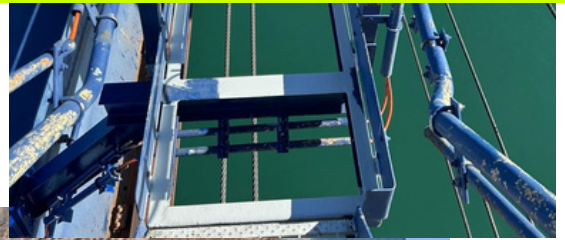

Development and implementation of rescue systems.

CORROSION MANAGEMENT

SHIPPING TERMINAL

Conduct Rope access And work at heights corrosion control campaign on Quay Crane, Port of Brisbane..

- Install safe methods of access for working at height teams.
- Day to Day Technical Testing & Reporting..
- NACE inspection & reporting.
- Mechanical paint prep
- Protective Coating application.

Development and implementation of rescue systems.

BLAST AND PAINT

SHIPPING TERMINAL

Blast and Paint spill trailer in Port of Brisbane and assist with day to day maintenance.

- Spot Blast and Paint Spill Trailer
- Day to Day Technical Testing & Reporting..
- NACE inspection & reporting.
- Mechanical paint prep
- Protective Coating application.
- Installation of Signage.

CLASS CORROSION CAMPAIGN

FPSO-OFFSHORE

Class Campaign for insurance -
Oversee Rope access operations
for WBT, COT, Over-side
Corrosion and Dropped object
campaigns

- Clear tanks of environmental hazards and ensure structure stability section by section.
- Install safe methods of access for rope access teams.
- Removal of decommissioned pipes.
- Removal/Installation of pipe supports.
- NACE inspection & reporting.
- NDT inspecting and reporting.
- Live gas works spool replacements under BA
- Mechanical prep paint
- Protective Coating application.
- Flange management.
- Manage Welding and fabrication works on live Facility.

ZER®
HARM 

Development and implementation of rescue systems & Permits

*WBT (Water ballast tanks)

*COT (Crude oil tanks)

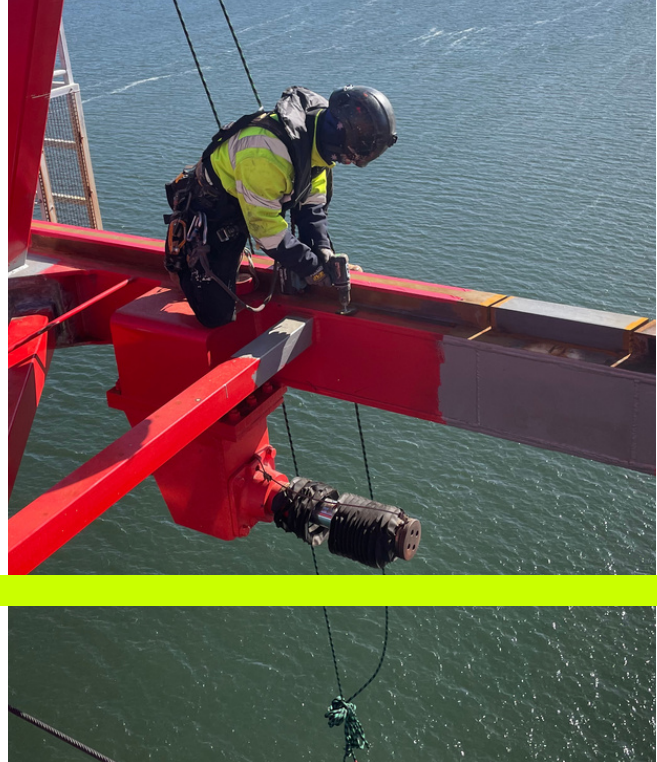

*NACE (National Association of Corrosion)

*NDT (non destructive testing)

SHIP LOADER BOOM EXTENTION

SHIPPING TERMINAL

Conduct Rope access
Industrial painting to all new
additions to Quay Crane and
provide safe access for
contractors, Port of Brisbane

- Install safe methods of access for rope access teams.
- Installation of Scaffolding platforms..
- Mechanical paint prep
- Protective Coating application.
- Assist with Welding and fabrication works.

Development and implementation of rescue systems.

ZER®
HARM

MAINTENANCE AND CORROSION PREVENTION

BULK TERMINAL

Oversee/Conduct Rope access operations through out Bulk Storage terminal and assist with day to day maintenance.

ZER®
HARM

- Fire Suppression Flow control valve install
- Emergency sensor/ Roof repairs
- NACE inspection & reporting.
- Inspection of assets
- Height Safety systems
- Rope access maintenance
- Clean Silo- internal/External

Development and implement rescue systems

OTHER PROJECT INVOLVEMENT

ROPE ACCESS EXPERIENCE

QUEENSLAND RAIL (MULTIPLE SITES)

OVERSEE/CONDUCT ROPE ACCESS OPERATIONS FOR:

- STANDBY RESCUE FOR BRIDGE INSPECTORS AND CONTRACTORS
- CONCRETE CRACK REPAIR AND REPORTING.
- ROCK SCALING AND STABILIZATION.
- GRAFFITI REMOVAL

DEVELOPMENT AND IMPLEMENTATION OF RESCUE SYSTEMS

**ZERO[®]
HARM** 

RIO TINTO PIPE MAINTENANCE & BIN LINER REPLACEMENTS (MULTIPLE SITES)

OVERSEE ROPE ACCESS OPERATIONS FOR:

- FLANGE MANAGEMENT (MECHANICAL)
- OVERSEE ROPE ACCESS OPERATIONS OF RIGGING, BOILER MAKING & MECHANICAL FITTERS WITH THE REPLACEMENT OF PIPES AND BIN LINERS.
- NDT INSPECTIONS & REPORTING.
- SHUT DOWN WORKS

DEVELOPMENT AND IMPLEMENTATION OF RESCUE SYSTEMS

*NDT (NON DESTRUCTIVE TESTING)

STRUCTURAL INSPECTION

SHIPPING TERMINAL

Conduct Rope access structural inspection on ship loaders, Port of Brisbane and Sydney

- Install safe methods of access for rope access teams.
- CSE.
- Structural Inspection & reporting

Development and implementation of rescue systems.

*CSE- Confined space entry

OTHER PROJECT INVOLVEMENT

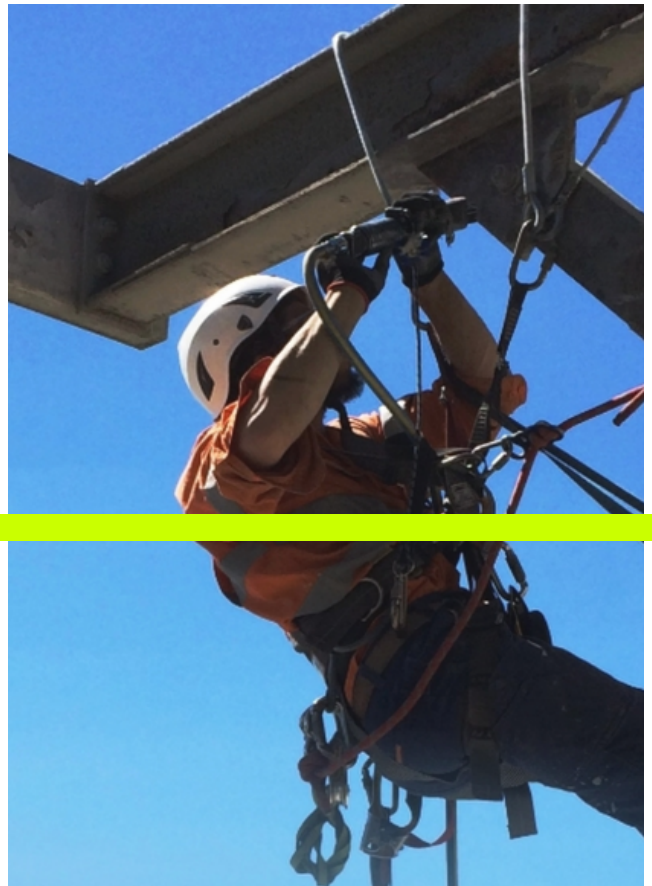

ROPE ACCESS EXPERIENCE

CEMENT AUSTRALIA MILLS & SILOS

ASSIST/OVERSEE/CONDUCT ROPE ACCESS OPERATIONS FOR:

- REMOVAL OF ROOF SHEETS
- MILL MOTOR REPLACEMENT
- PROVIDE STANDBY RESCUE FOR MILL DRUM PLATE REPLACEMENT
- CSE (CONFINED SPACE ENTRY) HIGH PRESSURE CEMENT SILO CLEAN
- CONVEYORS BELT SUPPORT MECHANICALLY PREP AND APPLICATION OF PROTECTIVE COATINGS
- SILO CONDEMNED STEEL WALKWAY REMOVAL
- CONCRETE SILO CRACK REPAIR AND REPORTING.
- SILO STEEL WALKWAY INSTALL.
- CONCRETE SILO STAIRCASE REPAIRS
- ROOF REPAIRS

DEVELOPMENT AND IMPLEMENTATION OF RESCUE SYSTEMS

ZERO[®]
HARM 

CEMENT AUSTRALIA SHIP-LOADER & WHARF

CONDUCT ROPE ACCESS OPERATIONS.

- NDT INSPECTIONS.
- WELD INSPECTIONS.
- JETTY PIPE WORK INSPECTIONS
- REPLACEMENT OF Z BEAMS AND PURLINS.
- ROOF RESTORATIONS.
- HATCH & DOOR INSTALLATIONS.
- MACHINERY MOTOR REPLACEMENTS.
- DESCALING OF INFRASTRUCTURE AND BOLT REPLACEMENTS. (MECHANICAL)
- ASSIST IN REPLACEMENT OF WIRE ROPE AND GREASING.
- MECHANICAL PREP MAIN BEAM SUPPORTS AND APPLICATION OF PROTECTIVE COATINGS.
- OVERSEE NDT INSPECTIONS.

DEVELOPMENT AND IMPLEMENTATION OF RESCUE SYSTEMS

NDT (NON DESTRUCTIVE TESTING)

TANK CLEANING

REFINERY

Conduct Rope access, CSE & Height safety operations for cleaning a 70,000,000L Petroleum Tank with a Vertidrive robotic UHP.

ZERO[®]
HARM 

- Removal of signage
- Provide CSE standby rescue
- Height Safety systems
- Rope access operations
- Clean Silo- internal

Development and implement rescue systems

*CSE- Confined space entry
